

Digital Photography FINAL PROJECT

2nd Semester

I am substituting the *Digital Photography Project* in lieu of a class FINAL.

Each class will also have **one additional print project** and all students will retake the Digital Photography Pre-Assessment.

5th Period

Photoshop Yourself

6th Period - *your choice*

Composition - graded on focus, color, and obvious subject

Editing Technique - find a web site, app, or editor and try it out

Camera Technique - green screen, depth of field, action, night photography, or camera specific options (i.e. color swap)

In addition, students may choose to have **one photo printed at Costco.com** in the size of their choice, up to 8x12. You upload it to my account. I'll pay to have it printed and back to you by Graduation.

*To receive the Costco print you must upload your photo and crop it to the correct size by **June 10th**.*
